PROVINCIAL SHUFFLEBOARD RULES

COMPETITIONS:

Doubles only. Playing on a bank board.

Eligibility:

This Competition is open to all Members in good standing of the Legion and Ladies Auxiliary.

STANDARD RULES:

Before the game begins, it is considered a sign of good sportsmanship for all players to shake hands. Players can flip a coin to decide who goes first.

Shuffleboard is played with weighted pucks, colored red or blue to indicate which player or team they belong to. Players alternate sliding their puck down the shuffleboard table

(<https://www.legacybilliards.com/collections/shuffleboard-tables>). The main idea is to get the pucks as close to the end of the board as possible, without them falling off the end.

The center of the table is divided from each end by two lines called the "foul lines". If the puck does not pass the foul line closest to the shooting player, it is considered to be in the 'illegal zone' and removed from the table. The table is surrounded by a gutter, called the "alley". Pucks that fall into the alley remain out of play for the rest of the round.

It is possible to hit the pucks of your opponent when sliding your puck down the table. Ideally, you can hit your opponent's pucks into the alley, and therefore out of play, while moving your pucks into a higher-scoring position. If your puck passes the foul line, but then bounces off a puck and goes back into the illegal zone, both your puck and the puck of your opponent are removed from play.

Each player slides a total of four pucks to complete a round. At the end of the round, only the player whose puck is closest to the edge of the table can receive points. For your puck to score points, it must be on the table, over the foul line, and closer to the end of the table than any of your opponent's pucks.

If the puck is overhanging the edge of the table, it scores four points. A puck that sits in one of the scoring zones receives a score of one, two, or three points, according to that zone. If a puck is touching the line, it receives the score from the lowest zone (for example, a puck in the second zone that is touching the line for first zone would receive one point).

In a two-player game, the first player to get fifteen points is the winner. In a four-player game of 'doubles', the first team to get twenty-one points is the winning team.

There are certain violations that will cost a player one point. To avoid any penalty points, ensure that you do not, in any way, rub your hands over the playing surface. Also, avoid extending the lower half of your body past the end of the board. Do not hold a playing puck in your hand while your opponent is shooting. While it is permissible to touch the frame, avoid touching the actual playing surface with either hand before, during or after making a shot.

In a singles match, it is permissible to go to the other end of the board to see the position of the pucks. When playing in teams, however, teammates stand on the opposite end of the table and play every other round, shooting from alternating ends of the table. The players are effectively playing two games at once, and combining the team scores. If you want to know about a puck's position, you must ask your partner. Going beyond the foul line at any time during the round results in a penalty.

Provincial Fees

Please be advised that the hosting branch will have additional Host Fees (meals, banquets, ect.) that are different from the Provincial Fees. *The team will be officially registered for the sport once Saskatchewan Command has received the teams Provincial Registration form.* It may be a first come, first serve basis depending on the availability of the sport. See registration process for more details.

LISTED BELOW ARE SOME SUGGESTIONS AND GUIDELINES FOR HOST

BRANCHES TO KEEP IN MIND WHEN HOSTING PROVINCIAL SPORTING EVENTS:

1. Branches hosting a Provincial Sporting event **MUST** have a Sports Committee in place that can handle the logistics of the event.
2. Provincial playoffs are the responsibility of the Host Branch. The Sports Package must be submitted 120 days prior to the event, to the Provincial Command for approval by the Sports Committee. This package must include: Cover, opening & closing Ceremonies, accommodation (Name, pricing, address, contact information), addition sports fees/information, meals (price & meal details), and any additional information they'll require for the event. Please do NOT post anything to social media or send out correspondence unless you have approval from the Sports Committee.
3. Ensure that someone has a camera there to take pictures of the Provincial winners to be sent to Command for use on social media and the Legion Magazine. Be sure to take photos using the highest resolution possible. Please ensure you include First & Last name and the branch name.
4. Any Branch wishing to host a Provincial event must send a letter to the Command Office. Hosts are accepted on a first-come basis. If the year chosen is already booked, then the next available year may be offered.
5. Explain the rules and tie breaking procedures before the competition begins. This ensures clarity for all participants.
6. Ensure the media is made aware of the competition.

PROVINCIAL BOWLING:

1. When planning this event, it is a good idea to rotate the start times for both categories. For example, Regular would start early one day and Golden Age would start early the next day.
2. You may want to start the Golden Age on the Friday to accommodate the working participants.

PROVINCIAL GOLF:

1. When planning supper for golfers on the Saturday evening it is a good idea to not serve it too late in the evening. Most golfers will be past the hungry stage by then.
2. When planning lunch on the Sunday ensure that it is not too early. You want to plan it around the time that all the golfers are finished play.
3. Ensure the Golf course can accommodate the 9-hole flights.
4. When Branches are accepted to host the Provincial event, the host committee should check out the golf course.
